re: **OLYMPIC DAM PROJECT COMPLETION**

On behalf of Bowhill Engineering I would like to pass on our sincere thanks to you and your team for a job well done. We are all under immense time pressures on this job to meet client's expectations, and the efforts of your team to accommodate our continual requests for early issue of drawings were outstanding.

The value added service provided by people such as Bevin and Rosette was paramount to us being able to meet our clients many requests for updated RFI registers and any other information deemed necessary by the client. I am sure there were many other people working away in the background that I did not have direct contact with who also added to the success of the project.

There may be situations over the next week couple of weeks as this project winds up where we will require some form of assistance and I am sure that your team will react to this in their normal expedient manner.

Once again thank you and I look forward to our next challenge together, hopefully in the near future.

Kind Regards,

Peter McIntyre
Project Co-ordinator
